This Periodical is brought to you for free and open access by the Fuller Seminary Publications at Digital Commons @ Fuller. It has been accepted for inclusion in The SEMI (1991-2000) by an authorized administrator of Digital Commons @ Fuller. For more information, please contact archives@fuller.edu.
Presidential Search Committee

After 30 years of service as President of Fuller Theological Seminary, Dr. David Allan Hubbard will be retiring on June 30, 1993. Dr. Hubbard is highly respected not only here on the Fuller campus, but around the world. It will not be easy to replace him.

The Board of Trustees has appointed a Presidential Search Committee to start the process of seeking a person to fill this important position. The approved criteria and public announcement of this Search will be made in the Fall of 1991. Listed below are the members of this committee:

Trustees: Max De Pree (Chair), Clifford Penner (Vice Chair), William Brehm, Samuel Reeves (ex officio), C. Davis Weyerhaeuser (ex officio), Arthur DeKryter, Jesse Miranda, Joan Yinger. Faculty: Winston Gooden, Robert Guelich, Paul Pierson. Alumni: Rick Blackmon. Student: Pam Williams. Admin/Staff: Jollene Anderson. Vera Wils will serve as Coordinator of the Search Committee.

Your input and suggestions of potential candidates is encouraged. Please send this CONFIDENTIAL information to Vera Wils, Presidential Search Committee, 1085 Riviera Drive, Pasadena, CA 91107. FAX and Telephone number is: (818)351-0124.

The selection of our next President is crucial at this juncture of Fuller's history. We need your prayers and support as the Committee undertakes this important assignment.

Max De Pree, Chair
Presidential Search Committee

Catalyst to Reopen on July 9

The Catalyst will re-open on July 9...and you'll notice a few changes. Last month, we said goodbye to Shahan and the crew from Burger Continental, who served us in the Catalyst and Refectory for several years. If you still have some meal coupons left, Burger Continental on Lake Avenue will honor them.

We now welcome a new food services company, managed by Shianne Gay with Facility Food Service. The menu at the Catalyst will look pretty much the same, though Shianne says that the prices may go down once she begins working with her vendors. In the Refectory, though, prices will be significantly less than before. For example, you will be able to order a cup of coffee for 50¢, a taco salad for $1.75, or a BLT sandwich for $1.95. You'll be happy to know that the food will be prepared right here on campus once they revamp the ancient gas ranges in the Refectory kitchen.

The Catalyst will be open Monday - Friday, 7:30 a.m. to 2:30 p.m. through the Summer, with extended hours in the Fall. The Refectory will be remodeled and open in the Fall. By that time, Copy Services will be moved and there will be a larger dining area.

If you have any questions or suggestions, feel free to contact Shianne at the Catalyst (818)584-5431.

Interested in Contributing to the new and revised "Semi"?

Anyone who has an idea or interested in being a contributor to the new "Semi" newspaper, starting in the fall, please call the Office of Student Services at (818)584-5435 and leave your name and phone number. A meeting will be held for all interested in early September. Editorials, columns, comic strips, puzzles, investigative reporting...any input is welcome!

Financial Aid Opportunities

INT'L BLACK EVANGELICALS UNITED This organization holds a yearly essay contest for African-American theology students. Contact Financial Aid for an address and information.

NATIONAL HISPANIC SCHOLARSHIP NHSF offers competitive scholarships to full-time Hispanic students with at least a 3.0 GPA. Most of their awards go to undergraduates in "traditional" degree programs. For more information, contact Financial Aid.

IMPORTANT BORROWER INFORMATION Federal regulations specify that: 1) you must contact your lender within 10 days if you change your enrollment status, name, or address; 2) you may OWE A RE-FUND TO YOUR LENDER if you drop below half-time in a quarter which is part of your loan period (so check with Financial Aid before you drop classes) 3) Fuller must assess financial aid, including designated grants from outside sources, when loan checks arrive. If total aid received exceeds anticipated aid, any overaward must be returned to the lender; 4) Fuller must return any unsigned loan check after thirty (30) days.

Calling All Student Wives!

Are you in need of a tan and some fellowship? If so, spend Saturday, August 10 at Huntington Beach with the Focus Group. Bring your own lunch and beach towels and meet us at the corner of Oakland and Ford at Fuller at 9:30 a.m. For more information or just to let us know that you're coming, call Meg at 584-5400 or Shelly at 584-5290.

Job Opportunities on Campus

The ASC is looking for a creative person to fill the position of Yearbook Editor for the 1991-92 school year. If you are interested, stop by the ASC office on the second floor of the Catalyst building to pick up an application.
GROUP THERAPY OPPORTUNITIES
Sponsored by
Fuller Psychological and Family Services

The Premarital Program: Much time and money is spent preparing for the wedding. Why not spend a little on the relationship? FPFS is offering a short-term premarital program which will focus on using personality assessment tools. These provide a couple with valuable feedback through which they can gain a deeper understanding into themselves and their partners. The program consists of 6 sessions (and one complimentary follow-up session). It can be adapted to fulfill premarital requirements of particular churches.

For registration or more information on any of these groups, please contact Terry of Fuller Psychological and Family Services at (818)584-5555.
BIBLICAL STUDIES SOFTWARE

Your institution subscribes to a GRAMCORD Site License. The annual contract provides more than just public access to GRAMCORD Institute programs. All students, faculty, staff, & alumni of your school or organization qualify for special discounts on personal copies of Greek/Hebrew software for IBM-compatible computers. These programs are distributed through the ministry of the non-profit GRAMCORD Institute as made possible by donations and subscription fees.

Looking for a word-processor with Greek & Hebrew support? Hundreds of seminary students use ChiWriter for their term papers and theses. **ChiWriter** is a "what-you-see is what-you-get" multilingual word-processor compatible with almost every graphics card and printer model. **Presto to stay with WordPerfect?** Consider Zondervan's Scripture Fonts Greek/Hebrew add-on (EGA/VGA/HGC+ graphics cards only; supports HP Laser and major 24-pin printers only).

Need to access, search, and study the Greek New Testament text? **PARSER PLUS** provides parsing for every word. GRAMSEARCH is an "instant" Greek word concordance. The Nestle-Aland 26th Edition of the Greek New Testament supports full Greek font display/printing with all diacritical marks. GRAMGREEK inserts Greek passages into your ChiWriter, WordPerfect, or Nota Bene documents. GRAMCORD is the exegete's grammatical/syntactical/lexical concordance program. Learn to create GRAMCORD grammatical concordances in just minutes with the user-friendly, "point-and-press" GRAMBUILD. The new GRAMPLOT shareware utility graphically illustrates the distribution of various phenomena throughout the New Testament. [GRAMCORD software bundles are priced from $170 to $260. The ChiWriter-compatible version of GRAMCORD includes a free ChiWriter system.]

These inexpensive, modular programs work together with your choice of three popular, multilingual word-processors: ChiWriter, WordPerfect with Scripture Fonts, or Nota Bene. Need to cut-and-paste from the LXX & BHS? Add both for $70. Join the over 1300 individual owners and the fifty-plus site licensed institutions who have invested in this growing library of computer-assisted Biblical studies tools developed through the research of the non-profit GRAMCORD Institute. **IMAGINE AN INTEGRATED SYSTEM WHICH ALLOWS YOU TO COMBINE THE POWERS OF:**

**GRAMSEARCH**, the "instant" Greek word concordance system. Type in a Greek word and view all of its Greek New Testament occurrences. What about the myriad forms of a Greek word? **GRAMSEARCH** is fully so that every occurrence of the word is retrieved (regardless of gender, number, case, tense, mood, etc.). Not sure of the spelling? Press the F2-KEY and a "pop-up" Greek vocabulary list appears — already positioned to the appropriate page. Use your arrow keys to point to a word, press the ENTER-KEY, and the list of references appears. **GRAMSEARCH IS SO SIMPLE TO USE THAT NO MANUAL IS NECESSARY.** (All of the help you will need is just an FL-KEY away.) All software modules are mutually compatible. Want to merge a concordance of Χριστός into your dissertation and add your own exegetical footnotes? Just save your GRAMSEARCH results to disk, process them through GRAMGREEK, and you have a word-processor-compatible file ready for full-font Greek display, editing, and printing under Horstmann Software's ChiWriter, WordPerfect 5.1 with Zondervan's Scripture Fonts, or Dragonfly Software's Nota Bene.

**GRAMCORD**, the concordance system which does more than just compare contexts on the basis of vocabulary. **GRAMCORD** will concord almost any type of grammatical construction that is lexically, morphologically and/or positionally defined. [Examples: optative verbs in the Pauline Epistles; εὐ τοί + present active infinitive; μή with the aorist imperative; two particles of the same lemma differing in voice and joined by καί; compound verbs based upon βασίλεια; a comparison of δία with a genitive object vs. διά with an accusative object; μέν ... δέ as alternating particles; ἐπί + feminine article/feminine noun + masculine article/masculine noun where each article/noun pair agrees in number and all five elements appear with non-intervening words; statistical breakdowns of verbal moods by book; analysis of γὰρ according to its ordinal position in a clause.] The concordance output is complete with textual references, full contexts, and relevant statistics ready for display on-screen, storage in a disk file, or printing. **GRAMCORD Jr.** allows one construction of almost any complexity to be concorded on a pass through the New Testament; **GRAMCORD SCHOLAR'S VERSION** concords up to twelve constructions simultaneously. With the new GRAMBLD program, **GRAMCORD concordances** (grammatical & lexical) can be requested within a very simple, menu-driven, help-prompted interface. Anyone can learn how to request all the occurrences of a user-described grammatical construction without ever opening the GRAMCORD manual. After five minutes with GRAMBUILD anyone can create grammatical concordances of the Greek New Testament with very little effort. (If you haven't seen GRAMBUILD, GRAMBD2, & GRAMPLOT, you haven't seen the latest GRAMCORD.)

"Anyone who undertakes the exegesis of the New Testament without familiarity with GRAMCORD does so at their own peril."

— Dr. Gleason L. Archer, Professor Emeritus, Trinity Evangelical Divinity School

**GRAMGREEK/NA26**, the easy way to convert a textual reference such as *RV 22:21 into Ἡ Χρίστος τοῦ κυρίου Ιησοῦ μετὰ πάντων inside your wordprocessor document. On a grander scale, GRAMGREEK can transform *IN 1:3 into a rendering of the Nestle-Aland 26th Edition Greek text of the first three chapter's of John's gospel; annotate the text or even write your own interlinear. **GRAMGREEK is the logical bridge between the research capabilities of GRAMCORD and your choice of three multilingual word-processors:** ChiWriter, WordPerfect with Scripture Fonts, or Nota Bene. **ChiWriter** is compatible with almost any printer or graphics card including the older 9-pins, CGA, laptop LCDs, and Hercules as well as the "high end" systems required by the other two wordprocessors; please confirm equipment compatibility before ordering.
PARSERT PLUS continues to be a favorite of students and pastors. Type in a reference such as MT 11:17 and instantly view a word-by-word grammatical breakdown of the Greek text for the verse. (For instance, ἴδῃς ζωήν is a 3rd person plural, present, active indicative from ζωέω.) You may also route the results to a file for editing and printing under your wordprocessor or integrate them with your own notes and personalized database system. Print out entire chapters of “parsed” Greek text for concentrated study or build your own interlinear analytical lexicon.

CHIWRITER GREEK-HEBREW EDITION is a full-featured, multi-lingual word-processing with a very definite "theological orientation." Greek, Hebrew, western European languages, many English fonts, Arabic, and a growing number of Biblical cognate languages are viewable on-screen and on almost every kind of printer imaginable. (Yes, this is a "what-you-see-is-what-you-get" word-processor and you will be pleased to see that the Hebrew vowels properly appear above and below the Hebrew consonants.) ChiWriter includes a powerful, theologically-oriented spellchecker with room for many more words of your own choice. Of course, ChiWriter is compatible with GRAMSEARCH, GRAMGREEK, and GRAMCORD. This versatile, multi-lingual word-processor allows you to display, print, and edit GRAMCORD concordances in full Greek with diacritical marks. Add your own commentary to concordance excerpts or prepare classroom handouts which illustrate features of the text. Write a dissertation. Do you like to build Greek/Hebrew sentence diagrams? Explore the new sentence diagramming capabilities of ChiWriter. As part of our discounted software bundles, ChiWriter is an exceptional value. In fact, over 1000 professors, students, and pastors have taken advantage of our GRAMCORD/ChiWriter software bundle site affiliate discounts. (Add $45 for ChiWriter LaserJet/DeskJet support disk.)

SEPTUAGINT & MASORETIC OLD TESTAMENT TEXTS are now available by courtesy of the Center for the Computer Analysis of Texts at The University of Pennsylvania. With each "CCAT text" shipment, The GRAMCORD Institute encloses various freeware and shareware utilities including the means of converting the files for use within ChiWriter or Nota Bene. (A similar utility is already packaged with Zondervan's Scripture Fonts for use with WordPerfect.) These "CCAT text files" conform to the format requirements of a growing number of research-oriented programs.

MEMCARDS (from Memorization Technology). MEMCARDS is the electronic equivalent to flashcards. Build and maintain your Greek and Hebrew vocabulary with a combination of long-term/short-term memory drills. Each set contains 1000+ words but you can add your own words, paradigms, grammar rules, and more. Easy-to-use, flexible, intelligent — and inexpensive at the site discount of $29 each for the Greek and Hebrew versions (regular price: $35).

"I am glad indeed to commend the research of The GRAMCORD Institute as one of the most worthy frontier projects of our day."
— Dr. Carl F. H. Henry, former Editor, Christianity Today

"Thank you for your efforts on behalf of theological students everywhere. The programs are great — so much power that I wonder if I will ever utilize it all!"
— seminary student

"I wanted to share with you the excitement my students continue to have with GRAMCORD. This year I am using GRAMCORD with my first year Greek students. It has been great to supplement the textbook with examples of the constructions directly from the New Testament. The advanced students feel as if they are pioneering, blazing new ground. It is exciting to see their enthusiasm for study of the N.T. in Greek."
— Dr. Michael Moss, Assoc. Prof. of Bible, David Lipscomb University

Student/Affiliate Price:

GRAMCORD Scholar's Bundle with ChiWriter
$260 (regular price: $380)

GRAMCORD Jr. Bundle with ChiWriter
Above bundles include ChiWriter Greek-Hebrew wordprocessor. Add $45 for LaserJet/DeskJet support disk (reg: $80)

GRAMCORD Scholar's Bundle for WordPerfect/Scripture Fonts
$260 (regular price: $380)

GRAMCORD Jr. Bundle for WordPerfect/Scripture Fonts
$170 (regular price: $280)

Zondervan's Greek/Hebrew Scripture Fonts not included in bundle prices. Add $75 if needed (reg: $100). Scripture Fonts is NOT compatible with CGA, "plain" Hercules graphics cards, or 9-pin printers. EGA, VGA, HGC+, or InColor Card graphics required for Greek/Hebrew display; compatible with HP lasers, Epson LQ, Toshiba SL, & IBM Proprinter.

GRAMCORD Scholar's Bundle for Nota Bene
$260 (regular price: $380)

GRAMCORD Jr. Bundle for Nota Bene
$170 (regular price: $280)

Dragonfly Software's Nota Bene wordprocessor with languages supplement & Ibid bibliographic tool available through The GRAMCORD Institute for $329 additional (reg: $695). Confirm system compatibility before ordering Nota Bene.

CCAT Hebrew Old Testament (BHS), $30; CCAT Greek Old Testament (LXX Rahlfs), $40; MemCards Greek, $29; MemCards Hebrew, $29; ChiWriter laser support, $45; Hammorch Hebrew Grammar Tutorial (VGA color only), $90. In U.S. ADD $5 S/H; Canada $8; Europe $23; other $38. VISA/MC ADD 4%. Add 5% to 3.5" diskette orders under $300.

SPECIAL TERMS: PAY JUST $120 DOWN WITH YOUR ORDER; PAY THE BALANCE WITHIN 60 DAYS.

PRESENT GRAMCORD USERS: updates and versions for other word-processors are only $25 each. CALL 1-800-445-8337 ext 6900 FOR AN INFORMATION PACKET OR COMPLETE THIS FORM AND SEND IT TO:

The GRAMCORD Institute, 2065 Half Day Road, Deerfield, IL 60015

PLEASE SEND ME A FREE INFORMATION PACKET. (CIRCLE YOUR EVENING TELEPHONE NUMBER IF YOU WOULD LIKE US TO CALL YOU SO THAT WE MAY ASSIST YOU WITH YOUR ORDER.)
