Far, far above thy thought
His wisdom will appear,
When fully he the work hath wrought,
which caused thy needless fear.

REPUTATION OR CHARACTER - The circumstances amid which you live determine your reputation; what you believe determines your character. Reputation is what you are known to be; character is what you are.

Reputation is a manufactured thing, rolled and plated and hammered and brazed and bolted; character is a growth. Reputation comes over one from without; character grows up from within. Reputation is what you have when you come to a new community; character is what you have when you go away.

Your reputation may be learned in an hour; your character may not come to light for a year. If you want a position, you need a reputation; if you want to keep it, you need character. Reputation makes you rich or makes you poor; character makes you happy or makes you miserable. The Triad.
