---When Dick Peace last wrote he indicated that local Christians of Uganda were very suspicious of us and that moving ahead with the radio application was highly problematic. We asked you to pray and I believe God has answered. Dick writes of a meeting with key Christian leaders in Uganda: "Our time together was an answer to much prayer... It was astonishing to the unity we discovered. The result is that the Brethren (those belonging to E. Africa's 30-year-old Revival Movement) are 100% behind African Enterprise and radio. This was a major hurdle. These men are the ones to get the license. I am convinced that the license is just a matter of time now. William Nagenda is taking personal charge of the negotiations on all levels. We could not wish for a more strategic African to do this." Do join us in thanking God for this new development. MC
