...that elect and honorable and enviable class of men that we call students of New Testament exegesis. Surely they are the happiest and the most enviable of all men, who have been set apart for nothing less but to the understanding and opening up of the hidden treasures of God's Word and God's Son." (Alexander Whyte)

HOW'S YOUR THROAT?? Men who do considerable speaking are sometimes bothered with hoarseness, rawness, soreness, flem in the throat, having to clear the throat, tickling in the throat, feeling of fatigue or "giving out" of the voice, loss of control of pitch or projection or quality, dryness in the throat, over-salivation, or just general discomfort after speaking for some minutes. These problems are usually a result of excess tension in the throat muscles and are sometimes termed "preacher's sore throat" or "phonesthesia." If you would be interested in a course this winter quarter to help you overcome this problem (on a practical drill level, not primarily theory or lecture or reading) please leave a note in my box immediately. This might be a credit course or non-credit depending on how the details are worked out. It would not be open to Junior men taking Speech 911. (Wm. Lantz)
