Until December 1, 1964, the Pasadena City Engineer's office has asked that we continue to keep combustibles and non-combustibles separate to facilitate their trash pick-up routine. Please help us to maintain their good will by co-operating in placing trash in the containers as marked on the lids or sides.

It appears that an encyclopedia salesman has been canvassing the married students and has been successful in making contracts upon the occasion of his first call. On the following morning, I have been approached by the students for advice as to how they can cancel the contracts. In dealing with door-to-door salesmen, a safe guide to adopt is never to enter into a contract until you have given yourself at least twenty-four hours to reflect upon it and discuss it with others who are knowledgeable on the subject.
