Senate Bill 2142 (Packwood/Moynihan Education Tuition Tax-Credited Bill) has recently been introduced in the U.S. Senate. A companion bill H.R. 9332 has been introduced in the House of Representatives. It provides a tax-credit of up to one half of the first $1000 of tuition that a student pays at any public or private university, college, seminary/Bible college, vocational school, secondary and elementary school. This is not a mere deduction against income. It is a credit against the taxpayer's actual tax due-in effect $500 cash amount to pay for tuition per student up to $1500.

This proposed tax law change, designed to aid the inflation-squeezed middle and working classes, is estimated to be worth one billion dollars in new money for those now paying tuition. There is no federal control over schools in this bill; it is not a grant, nor is there any money flowing from the government to the schools. In fact, school administrators have no way of knowing who takes the tax credit. It is a private matter between the taxpayer and his I.R.S. form.

Please send a brief letter to our U.S. Senators, S. I. Hayakawa and Allen Cranston. Also, please send a letter today to Honorable Al Ullman, Chairman of Committee on Ways and Means, U.S. House of Representatives, Washington, D.C., 20515.

P.S. Suggestions in communicating with legislative representatives:
1. Be brief. A one-page letter is best.
2. Do not use working from a form letter. Compose your own thoughts and use your own words.
3. Write the title and number of the bill in the top right hand corner.
4. Briefly state your position on the bill logically explain why you urge a vote in a particular way.
5. Be positive—if possible even complementary. If you know some good the legislator has done, tell them that you appreciate their service as a lawmaker.
6. Ask others to write—if we do not write or get others to write and the bill fails—it was our fault. If we and others do write and the bill fails—we did all we could. Our God will provide some other way.
7. Pray for God to work through us and through our legislators to do His will for His glory.

This bill has a good chance, but we can tip the scales in its favor if Congress hears from God's people everywhere.
