COMMUNITY ANNOUNCEMENTS

Congratulations to . . .

... Robin & John Brown, on the birth of their son, Michael Robert, born on  
April 28. Michael weighed in at 8 pounds and 11½ ounces.

... Mary & Gary Mathiesen, on the birth of their daughter, Jennifer Lynne,  
born on February 29. Jennifer weighed in at 8 pounds and 5 ounces, and  
was 21" long.
Greetings!

I would like to inform you of some specific issues that ASC is presently involved with.

Tuition: Virtually every student I have talked to at Fuller is concerned about the increasing cost of education. The tuition increase for the coming year (at least 10%) will cause some hardship to most Fuller students. Recently, I talked with Dr. Barker about this increase, and he expressed sincere concern about the financial plight of students. Dr. Barker said that the administration is caught between the needs and the pressures of students and the rising costs of the economy. This increase will still not enable Fuller to keep up with inflation in the Southern California area. Specifically, rising energy and insurance costs, and overdue staff wage and salary increases will be funded by the tuition increase. Dr. Barker told me that students would be able to meet with the administration in an open meeting to discuss the specific reasons for the increase.

Everyone, staff, faculty, administration, and students, is feeling the pressure of inflation and is absorbing some of the increasing cost of living. Dr. Barker asked me to keep him informed about students who are experiencing severe financial difficulties at Fuller. If you are aware of students who have severe needs, please contact me so that student government can work with Dr. Barker and the administration to help these students as we are able.

Let me know what your thoughts are about this matter.

Campus Security: The ASC recently passed a proposal requesting that a security program be included in the regular institutional budget. Because Fuller is enrolling an increasing number of women, and our school is in an area that is increasingly susceptible to crime, the council believes that Fuller must make a definite commitment to the personal safety of students. It is difficult to establish a new program in an institutional budget when the budget is being cut, but our feeling is that an escort program from dusk until one-half hour after the closing of the library is essential for the safety of women at Fuller.

Health Service: Vicki Van Horn's office hours are Monday from 1:00 to 4:00 P.M., and Wednesday morning from 9:00 to 12:00 noon. Although she may be in her office at other times, you will definitely be able to see her during her office hours. Any forms that you might need are on a table outside her door, and can be picked up at any time. If you try to call her, and are not able to reach her, please put a note in her mail box or slide a note under her door. Because the switchboard at Fuller is very busy, please do not leave a message for Vicki unless it is an emergency.

Catalyst: For several years the Catalyst has been running a deficit. I just recently learned that the deficit for this year is $5,000. When added to a previous deficit of $4,000, this results in a total accumulated deficit of $9,000 for the Catalyst. The Projects and Services Committee was not aware of the size of the deficit because a format for reporting expenses had not been specified. A misunderstanding in the way expenses should be reported developed:
Catalyst (con't):

payroll expenses made, rather than total payroll charges were presented by the Catalyst manager to the Projects and Services Committee. Catalyst management was assuming that because of limited space, equipment, sales volume, and because of the payroll expenses associated with serving the campus as a student center, the Catalyst should not be responsible for covering all the expenses. The deficit is a result of payroll expenses, custodial expenses, and the low prices of the Catalyst menu.

At present, I, along with the Projects and Services Committee, am working with Catalyst management, the Business Office, and a consulting service, to evaluate the present position of the Catalyst, and to explore goals for future operation. It is clear that the Catalyst is a vital part of the Fuller community. As students, we must decide what goals the Catalyst should pursue and what services the Catalyst should provide. How much of the ASC budget should be used to support the Catalyst? What should the Catalyst menu consist of? Should the Catalyst Food Service be open on Friday nights when just a few people come in for coffee and sales don't cover payroll expenses? Should we try to coordinate the Catalyst with other food services on campus in order to decrease our cost?

We are in the process of brainstorming in order to determine the alternatives before us. Ultimately, we will present these alternatives to the All-Seminary Council for a final decision. There will be an open meeting on Wednesday, May 7th from 3:00 to 5:00 P.M. in the ASC office, for anyone who is interested in discussing the present or future position of the Catalyst. If you would like to provide input but this is not a convenient time, stop by during my office hours or drop me a note in my box (531).

Mission Concerns Group: This past Friday, there were over thirty American students and international students who met in Payton Hall 101 for a potluck dessert. We spent time fellowshipping, singing, and praying for personal and corporate needs, here at Fuller, and worldwide. It was a joy to have so many international students join us for the evening of fellowship.

A potluck honoring our Fuller interns and Fuller international students who are returning to their home country after this quarter is planned for Friday evening, May 9th. This promises to be another evening of enriching fellowship. All are welcome!!

Have a good day!
