1990 Winter Courses in the School of World Mission
of Special Interest to Theology Students

MB571: Urban Anthropology and Church Planting (Paul Hiebert)
This course explores some of the critical issues arising from the rapid urbanization occurring around the world. While some celebrate, and many deplore the rise of the city, for us the question is how does the city mould our lives, and how can the church best minister in that setting.
TuTh 1:00 p.m.-2:50 p.m.

MC550: Healing Ministry and World Evangelization (C. Peter Wagner)
A ministry-oriented missiological course intending to help students discover and understand assumptions concerning the relevance of God’s power in miraculous healing and develop skills for applying it to the contemporary task of world evangelization. Resources persons will be called upon to supplement and interact with lecture material such as Ray Anderson, Charles Kraft, local pastors, and others.
Th 6:00 p.m. - 8:50 p.m.

MH520: Historical Development of Christian Movement (Paul Pierson)
The purpose of this course is the missiological reinterpretation of the history of the church worldwide, and the application of the insights which emerge to present strategies of mission. We will not examine primarily the theological and institutional development of the church, but rather the dynamics of its expansion. We will pay special attention to means of renewal and structures of mission.
TuTh 8:00 a.m. - 9:50 a.m.

ML500: Introduction to Leadership (Eddie Elliston)
This course introduces the basics of leadership theory from a Christian perspective. It briefly surveys how spiritual leaders emerge and how they may be developed. It moves through a brief historical survey of modern western leadership theory of the past 150 years. In addition, the survey identifies the prominent leadership influentials, works and theories for each period. The major variables which affect leadership effectiveness are considered.
MW 11:00 a.m. - 12:50 p.m.

MR520: Folk Religion (Paul Hiebert)
This course deals with tribal and folk religions from an anthropological point of view. Particular attention is given to the structures of religious beliefs and symbols, the nature of religious rituals, the functions of religion in society, the types of religious practitioners, the dynamics of religious movements.
TuTh 8:00 a.m. - 9:50 a.m.

MT521: Pauline Theology and the Mission Church (Dean Gilliland)
A study of the basic principles of the theology of Paul as they apply to the mission church. Specific problems of the apostolic church in Asia and Europe will be considered from Acts and the Epistles of Paul covering, e.g., conversion, the convert and the church, church and society, and the role of the missionary.
TuTh 11:00 a.m. - 12:50 p.m.
